

# Lightfoot Scoring Explanation

### Time in Green

The % of all time during the report period spent in the GREEN 'realtime' LEDs on the Lightfoot display.

### Time in Amber

The % of all time during the report period spent in the AMBER 'realtime' LEDs on the Lightfoot display.

### Time in Red

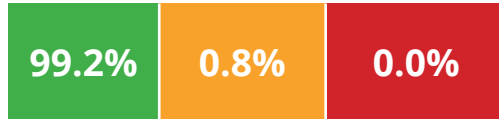

The % of all time during the report period spent in the RED 'realtime' LEDs on the Lightfoot display.

### Driving Penalties

The number of audible 'Penalties' issued during this week. A 'Penalty' is always preceded by two Nudges\*.

### Score

Your Driver Score calculated by subtracting Red from Green minus a deduction per penalty.

Score  
99.2%

Nelly  
The Lightfoot elephant.

**Congratulations**  
You are an Elite Driver

### Elite Driver Badge

If you reachED Elite Driver status this week (i.e. score 85% and above).

### \*Nudges

Nudges are part of everyday driving - a nudge is triggered by the start of inefficient or potentially unsafe driving. They are designed to help you stay as smooth as possible, and increase your score.
